May 2014 and June 2014

There will **not** be homeplans for these two last months. You have to revise the vocabulary sheets, the

different homework/ grammar activities you have done over the last months.

Make sure you revise:

1. Simple present : verb to have and to be (affirmative/negative/interrogative forms)
2. Simple past: Regular and Irregular verbs (affirmative and negative form)
3. How to make questions : yes/no questions versus open questions
4. The modals (should / would/ could/ can/ will). Make sure you know the difference between these modals and how to write them in different contexts.
5. Possessive and demonstrative adjectives
6. Prepositions

I also added different videos in the « Activities » section of the class web. There are videos and exercises on the simple past form to help you revise.
